Evaluated station forecasting
Observations + meteorology
Cutoff-safe inputs + missingness flags
15-station kNN 60 directed edges
12 h × 18 input channels
GINEConv spatial
GRU temporal
PM2.5 1/3/6/12/24 h
Directional hinge loss (no conservation)
Experimental downstream extensions (dashed dataflow)
Station forecasts observed sites
Compact spatial decoder 1,249 parameters
154,902 road-node experimental estimates
Routing prototype
